

Hotel de Paris, Monte Carlo, Monaco

Architect:
Societe des Bains de mer, Monte Carlo

Initial situation:
This luxury hotel is embedded between the sea and the Place du Casino. Bas-reliefs, marble columns and chandeliers characterize the hotel's image. Tradition and love of detail are manifest. The curtains were to take into account these circumstances and meet corresponding requirements.

Solution:
The textiles fit perfectly with the classic style of the Hotel de Paris. Thanks to the combination of two different curtains, criteria such as „dimming“, „privacy assurance“ and „glare protection“ could be met to the same degree as the visual requirements.

Product:
Dimmer II, Sinfonia CS, Ponte II
