

CRÉATION BAUMANN | HOSPITALITY

Photos: Réne Rötheli, Baden

Blue City Hotel, Baden, Switzerland

Architects:  
Atelier West Architekten AG, Baden

Initial situation:  
The renovation of the neo-baroque building led to the creation of the new and modern Blue City Hotel. In order to ensure extraordinary well-being, past and novel elements were to be combined.

Solution:  
A perfect synthesis of the classical elements of the existing building with the zeitgeist of the extension. Thanks to the mixture of simplicity, elegance, and design, the well-being of the guests staying in the 28 rooms can be catered to according to the motto: „The only thing better than being a guest here is being at home.“

Products:  
Dimmer II, Naxos II, Sendal UN II
