ARCHAIC
DESIGN

Rocksresort, Laax, Switzerland

Architects:

Domenig Architects, Chur

Responsible architect: Marcel Caminada

Interior Architects:

Domenig Architects, Chur

Responsible architect: Marcel Caminada

Bruno Bundi, interior architect, Chur

Realisation: linea r54 ag, Chur

Initial situation:

To set a contrast to the outer appearance, a pale color concept was chosen for the interior design. Furnishings consist exclusively of high quality objects. The rooms were to be equipped with outstanding fabrics to ensure a corresponding appearance and surface feel.

Solution:

The robustness and density of the fabrics for use in the living quarters were important prerequisites. In order to underline the archaic design consisting entirely of massive, oiled oak wood in the bedrooms, only linen curtains could be considered. To ensure sufficient dimming, the linen curtains were lined additionally.

Product:

Marlon, Linum
