Discover how Création Baumann can meet special requirements with textiles that are just as special themselves.

**Object**  
Aparthotel, Rotkreuz, Switzerland

**Concept**  
MMJS Jauch-Stolz Architects with Casa Tessuti, Lucerne, Switzerland

**STARTING POINT**  
Textiles were required that would act as a counterpoint to the architecture, which is characterised by areas of concrete and white.

**SOLUTION**  
The fabrics used here provided colour accents, radiated warmth, controlled the light, absorbed the noise and sub-divided the spaces. The Mystery fabric was developed especially for this Aparthotel.
