NORTHERN AND MODERN

How can we enjoy the pleasure of daylight as well as an effective privacy screen? The k/o design studio has put its faith in the creation of a perfect room ambience with Création Baumann's systems.

Object

Condominium Kinuta, Tokyo, Japan

Concept

Kunihide Oshinomi, Tokyo, Japan

INITIAL SITUATION

The entrance hall to the condominium building is located next to a park, with trees and areas of grass, in Tokyo. The focus of the room design was on creating a modern space in the northern style for the inhabitants and their guests.

SOLUTION

The choice of pendant light, curtain and sofa is perfectly tuned to the architecture of the space. The semi-transparent curtain provides visual privacy, while the design takes up the fascinating shadows cast by the trees in the park and bathes the space in pleasant, soft daylight.

USED PRODUCTS

NORTHERN AND MODERN

SINFONIA CS
ADAGIO

ART.-NO. 0100306

Use:	Transparent curtain fabric
Number of colorits:	3
Material:	100% Flameretardant polyester (Trevira CS)
Fabric width:	300 cm
Weight:	79 g/m ²
