COLOURFUL MEDICINE

Colourful mood in paediatrics

Object

Dornbirn Hospital, Dornbirn, Austria

Concept

Dipl. Ing. Gerhard Wolf, Dornbirn /
Monika Heiss, Farbe & Design, Thaur /
Wohlgenannt Raum & Textil, Dornbirn

Photos

David Schreyer, Wörgl

STARTING POINT

Renovation of the hospital's paediatric ward. The aim was to create an environment that alleviates the fear, boredom and impatience of children, as well as the parents' concerns through the room atmosphere.

SOLUTION

Colourfully decorated rooms with pictures are specifically geared to the needs of children and parents. The easy-care fabrics from the Kids Collection are a perfect fit and relax the ambience.
