## IN LONDON'S CLOUDS

Calming and dramatic at the same time—the gourmet restaurant's design fuses Omakase style and Kengo Kuma design.

### Object

Endo at the Rotunda, London, England

### Concept

Method Architects, London Kengo Kuma & Associates, Tokyo

### Photos

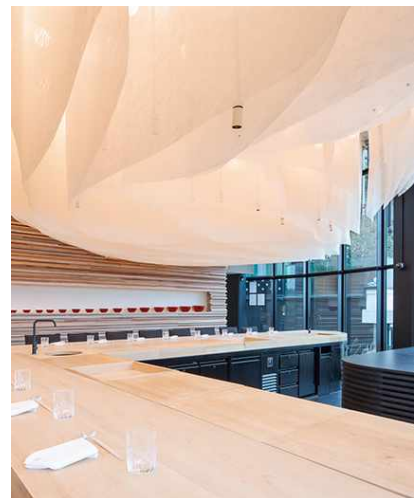

Peter Kociha,

### STARTING POINT

As a symbol of the room, an organic cypress counter was designed, inspired by calligraphy brush strokes. This special sushi bar fuses chef and guest engagement and the process of preparing and eating.

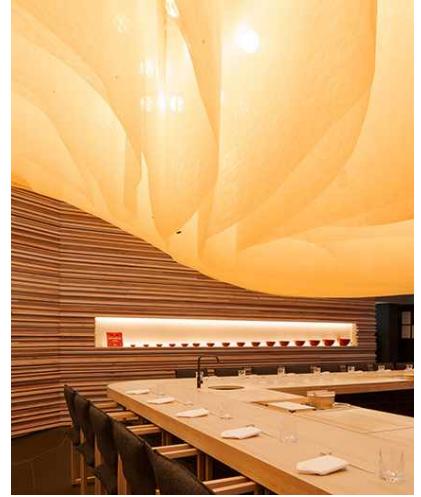

### SOLUTION

An object reminiscent of a cloud is suspended above the counter, designed from a textile whose texture is very similar to that of the traditional Japanese paper. The Washi-inspired fabric folds were designed from the laser-cut SPIDER roller blind fabric. The "cloud's" light constantly changes as if it was a real cloud in the sky, drifting across the sky over west London.
