STARTING POINT

The conversion of the listed historic building in the City of London into a Four Seasons Hotel with flats was very complex. In 2019 the project was awarded the City Heritage Award. An award given to the best conservation or restoration projects in the City of London.

SOLUTION

The finished hotel has 100 guest rooms and 41 apartments. Création Baumann black-out fabric Oscuratinto Plus II was selected for use in the guest rooms for its soft feel and drape properties, providing a beautiful, timeless and elegant appearance.
