2700 M2 OF FREEDOM

Thanks to Création Baumann (amongst others) these areas can be freely combined within the 2700 square metres of the new Konzepthalle6 in Thun (Switzerland). The textile concept is based on a flexible interplay between transparent and opaque curtains.

Photos

Peter Leuenberger, Bern

INITIAL SITUATION

“dasKonzept” has brought together culture, design, architecture and gastronomy inside this hall, which is a listed building. The 2700 square metre internal space can be sub-divided by curtains into three smaller areas, thus making it usable for a very wide variety of events.

SOLUTION

The central area of the hall can be darkened with a curtain in the Dimmer fabric for lectures or concerts. A transparent curtain can also be drawn across the hall, at a distance of 10 cm from the first curtain. Drawing the transparent curtain alone simply slightly divides the hall visually. On the other hand, beautiful, almost homely moods can be created by a combination of both the transparent and light-dimming curtain, together with accentuated light.

USED PRODUCTS

2700 M2 OF FREEDOM

DIMMER IV-300 ART.-NO. 0005402

Use: Dim-out fabric
Number of colorits: 24
Material: 100% Flameretardant polyester (Trevira CS)
Fabric width: 300 cm
Weight: 260 g/m²
Sound absorption: Alpha value 0.60

ELUIS II ART.-NO. 0100146

Use: Accessoires
Number of colorits: 5
Material: 80% Wool / 20% Polyamide
Fabric width: 130 cm
Weight: 942 g/m²

SINFONIA CS VI ART.-NO. 0100301

Use: Transparent curtain fabric
Number of colorits: 3
Material: 100% Flameretardant polyester (Trevira CS)
Fabric width: 300 cm
Weight: 74 g/m²
Sound absorption: Alpha value 0.10
