## FOR CONFERENCES IN XXL

For the generous glass facade of a multifunctional conference room, the architects asked for a textile system that would offer sound absorption and light control in line with the various conditions of use.

### **Object**

Multi-storey office building Finanz Informatik, Frankfurt on the Main, Germany

### **Concept**

Architecture and general planning: MOW Architects, Frankfurt / Interior decorator: Büro Weller, Frankfurt

### **INITIAL SITUATION**

A textile system ensuring sound absorption as well as offering various possibilities of use with regard to lighting was to be defined for the large glass facade of the multifunctional conference room.

### **SOLUTION**

Our products Dimmer and Shadow proved to be the perfect solution for dim out and solar glare protection, as well as the acoustic requirements of the room. Moreover, Umbria was used for the curtains in the conference room as well as to screen this room from view from the corridor.
