## SIMPLE ELEGANCE

Highlighting the assets with the right materials.

**Object**

Ota Civic Hall, Ota, Japan

**Concept**

Kohyama Atelier, Tokyo, Japan

**Photos**

Shigeo Ogawa, Tokyo

**SITUATION**

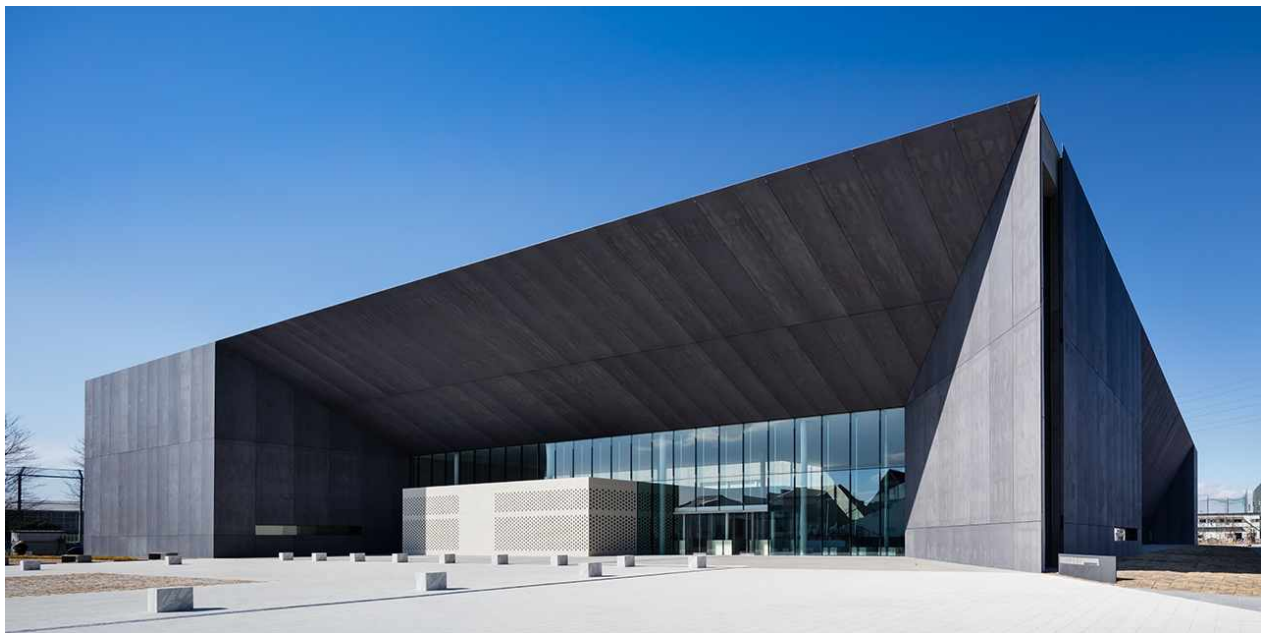

Ota Civic Hall is a public theatre complex consisting of a hall, a studio and several multi-purpose rooms. With this building, the interior designers focused on texture, colour and materiality to highlight the object's simple beauty.

**SOLUTION**

STEEL TEX II was exclusively used for the foyer of the Ota Civic Hall. The metallic texture and the fine stripy look of this semi-sheer fabric take up the building in its design while ensuring optimum heat and glare protection on the object's interior.
