ACOUSTIC FABRICS IN PRIVATE SPACES

Object

Private home, St Gallen, Switzerland

Concept

Bechtiger Wohnen, St Gallen

Photos

Anna-Tina Eberhard, St.Gallen

STARTING POINT

A large living room for the whole family. Here, the furnishings have been kept to warm, earthy shades, in contrast to the room's concrete walls.

SOLUTION

Acoustic interior design has never looked better: ZETACOUSTIC's features are doubly appreciated in this St Gallen private home (Switzerland). The alpha-value offers clear sound. The transparency creates clarity and openness.
