SCANDINAVIAN MINIMALISM

Using design to reflect a mindset.

Object

Reaktor HQ, Helsinki, Finland

SITUATION

The main goal of the 3500m² project was to create an office reflecting Reaktor's attitude. The spatial solutions aim to create a diverse working culture where people feel at home.

SOLUTION

The SHINE PLUS and SHINE MEDIUM curtains were chosen for the Reaktor HQ spaces because of their lightweight sophisticated appearance. The fabrics accurately align with Scandinavian minimalism and contribute to the rooms' fundamental look and feel.
