

## FANFARE | MOUNTING INSTRUCTION

### No red sticker on the blind?

If it got loose but still remained in the package you can open the first bundle of blinds and mount them one by one.

### The blinds got mixed up

The order of the blinds is very important. Mount the blind with the sticker on red sticker and mount it according to the motif. The next blinds need to follow the order. You find the location of the code under the according motif.

### The motif is not fluid

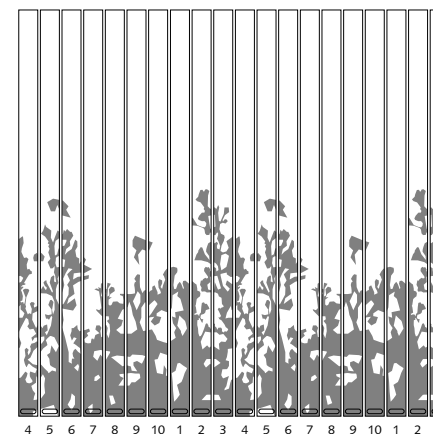

Make sure that the code numbers are in order according to the motif. The blinds can be changed easily.

### Damaged blinds

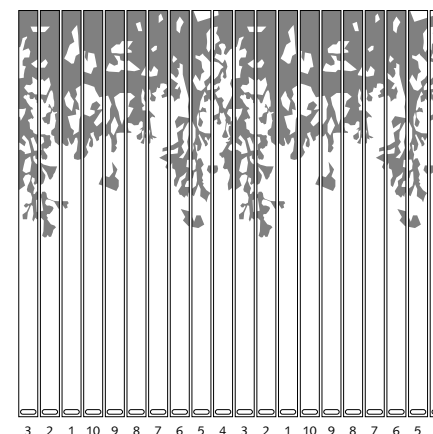

To replace the right blind we need to know the correct code number of the damaged blind

### Please, consider

In case of blind replacement. The blind with print designs can vary in colour slightly.

Motif at the bottom

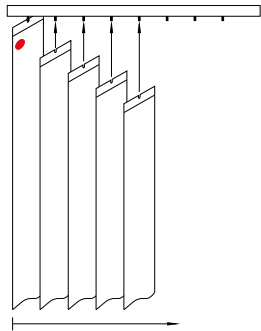

Motif on top

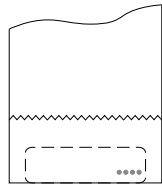

The vertical blinds of Fanfare are available in two confections. The motif can be on top or at the bottom. Each one has its own mounting instructions.

The motif contains of 10 different vertical blinds. Each blind has a code made with 1 – 10 dots. This code is used to identify the vertical blind and where it is situated in the motif.

## FANFARE MOTIF AT THE BOTTOM

First blind on the far left

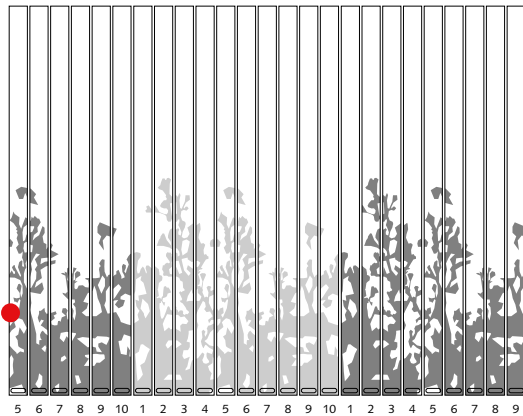

Code number on blind

mounting:

The vertical blinds are mounted from the far left to the right. Starting with the blind which has a red dot stuck on.

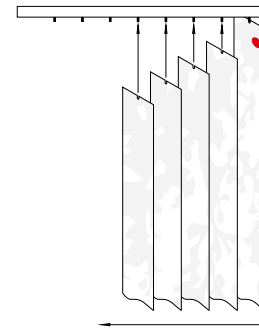

The first blind can have any number of the code from 1-10. It is necessary to mount the following blind with ascending code number. For Example: The first blind has 5 dots. The next blind needs to have 6 dots and so on. The code is located on the back, at the bottom weight.

The blind with 10 dots marks the end of the repeat. Mount the blind with one dot next and continue with the new motif until all blinds are mounted. The blinds are sent in the correct order.

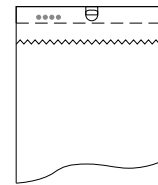

Example: Motif at the bottom ready-made

## FANFARE MOTIF ON TOP

First blind on the far right

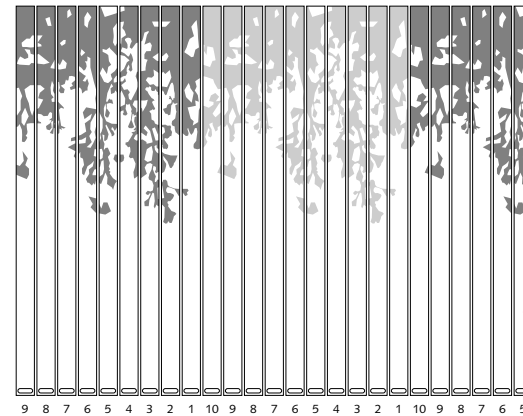

Code number on blind

mounting:

The vertical blinds are mounted from the far right to the left. Starting with the blind which has a red dot stuck on.

The first blind can have any number of the code from 1-10. It is necessary to mount the following blind with ascending code number. For Example: The first blind has 5 dots. The next blind needs to have 6 dots and so on. The code is located on the back, at the top insert.

The blind with 10 dots marks the end of the repeat. Mount the blind with one dot next and continue with the new motif until all blinds are mounted. The blinds are sent in the correct order.

Example: Motif on top ready-made
