## EXCLUSIVE ILLUMINATING TEXTILES

Textiles fused with light – the latest innovation from Création Baumann, the Swiss textiles company.

eLumino is a world first, combining highly advanced textile design with the very latest LED technology to open up a new dimension in textile surface configuration. This technically refined curtain is designed for day and night, generating images that are both appropriate and variable, depending on the lighting conditions.

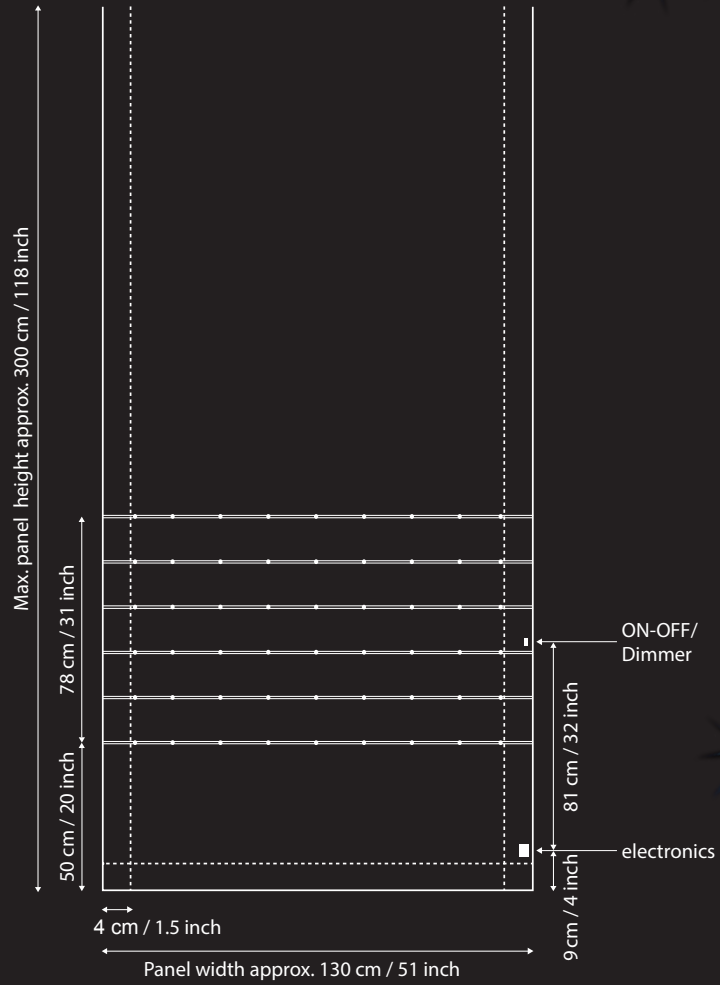

These unusual and innovative eLumino light-emitting textiles conjure up a great atmosphere and sensuality within an interior space. The dimmable light display and flowing, fluid fabric create sculptures of textile and light.

eLumino can be used for stylish staging, in a sea of light or as an individual panel in combination with the harmonised uni fabrics "Aves" and "Sema".

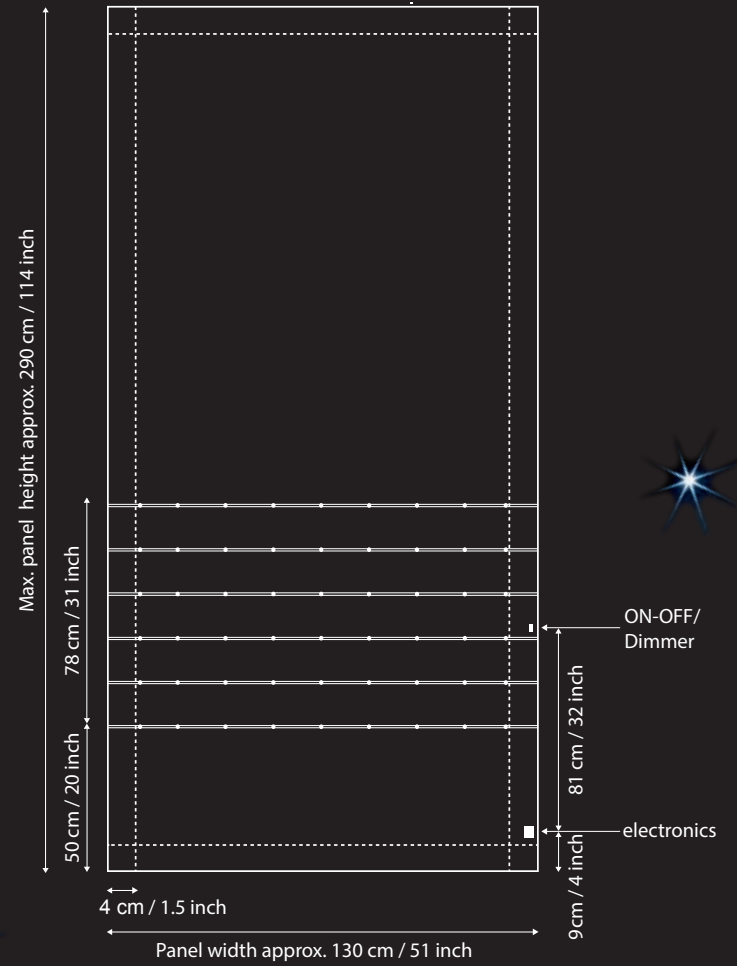

We hope that you will gain great enjoyment from these exclusive textiles.

The Création Baumann team

eLumino Aves ready made on three sides

eLumino Aves ready made, straight on the top without cutting, with gliders Piccolo or VS57

## Technical accessories

- USB 2.0-extension cable with A plug - A socket, white, 3.0 m / 118 inch
- USB-charger, white, 100 - 240 V, 1000 mA

## Operating instructions

1. Connect the plug fitted on the textile itself to the USB extension cable.

2. Connect the USB extension cable to the USB charger.
3. Connect the USB charger to the wall socket.
4. Press the ON/OFF switch in the right-hand seam, 90 cm / 30 inch above the bottom edge, and hold for two seconds until the lights come on.
5. To dim the lights, press the ON/OFF switch briefly (three dimming levels).
6. To switch off, press the ON/OFF switch and hold until the lights go out.

## Battery operation and other operating modes

- Electrical power can be supplied via a conventional power-pack-type energy storage device with a USB output. A 2500mAh energy storage device can provide you with:  
4 hours of operation at Level 1 (bright)  
15 hours of operation at Level 2 (medium)  
60 hours of operation at Level 3 (soft)  
These values cannot be guaranteed
- eLumino curtains can be connected together in series.
- For these and other special applications, please contact your domestic installation engineer or a specialist electronic market directly.

## Maintenance

- We guarantee up to 5 cleaning cycles.     
- Do not use in wet or damp conditions.
- Mechanical stress that exceeds the intended function should be avoided, particularly in relation to the LEDs and the cable.
- Do not subject the LED embroidery or the electronics to corrosive environments.

## Guarantee

The normal period of limitation for guarantee claims made by the Purchaser against Création Baumann is 2 years from the delivery of eLumino.

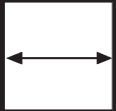

Any material or manufacturing faults that arise during this period will be corrected, repaired or (in exceptional cases) replaced through the original Création Baumann sales channel.

The guarantee is invalid in the case of defects that have not been caused by material or manufacturing faults, but rather by incorrect use on the part of the Purchaser, non-compliance with the operating instructions or improper maintenance, or as a result of the local conditions or faulty set-up, connection or installation, or by overloading, changes to the products or similar influences. Any measures undertaken to resolve faults outside the provisions of the guarantee will be undertaken by Création Baumann at the cost of the Purchaser.

## Waste disposal

Please return the eLumino curtains to your specialist retailer for proper disposal.
