

SHINE PLUS

Glare and heat protection; Aluminium metallised curtain fabric with a delicate flame texture and a gorgeous textile quality offers effective sun and glare protection whilst affording optimised vistas to the outside. An ideal solution for controlling light in public and residential interiors. Combines well with Shine Medium. Grading of the weave density into groups of different transmission values facilitates an uniform look in interiors which have windows facing in different directions and consequently have to meet different light conditions (large scale open plan offices).
